Student Manual

Solo simulation · Allow about 45 minutes, including submission.

Open Before the Vote in For Class. Lead a small safety coalition. Read the chair's rule, then choose two lobbying moves. Use Evidence & terms to look up unfamiliar words.

Record four responses

Checkpoint	Words	What to do
Your two moves	55	Explain what got the bill scheduled, what happened to the wording, and what you gave up. Use one entry from the record.
Replay	60	Record your forecasts first. Compare your moves and the example under both rules. Explain what changed and why.
Evidence	60	Answer both supplier-record questions. Choose one evidence card and follow its prompt. Say what further evidence would help.
School bill	75	Defend your choices. Use the result to explain one benefit or cost. Write one question you would ask a night custodian.

Type or dictate in the game. To paste, use text copied from the same answer box. Select Record answer at each step. The four minimums total 250 words.

Save and submit

Enter your name and course or section at Your Canvas report. Choose View completed report, check your four answers, and select Print or save as PDF. In the print dialog, choose the option to save a PDF. Open the saved file, upload it in Canvas, and check for confirmation.

To pause, use Save & pause and later Resume Class in the same browser. To change devices, use Progress backup & restore and keep the .json file. Use the PDF for Canvas.
