Who Gets the Credit?

Launch For Class · 50–65 minutes including the PDF check

---

01 Choose For Class

Choose For Class for an assignment. You play a House deputy whip trying to move a bridge repair bill. All required facts and records are in the activity.

02 Write and record each response

Save one response per chapter: the whip room (65 words), House voting data (80), the Senate (85), and Pine Fork (40). Select **Save response for report** each time. If your instructor approves a different writing workflow, use **Writing access**.

03 Pause after the House response

Select **Save and pause**. On the same device and browser, reopen the activity and choose **Resume For Class**. To move devices, download a progress backup (.json), then choose **Restore a progress backup** on the other device.

04 Save and submit your PDF

Enter your name before selecting **Open Class report**. Choose **Print or save as PDF**. Open the finished PDF and check your name, all four responses, and the final page. Upload it to the Canvas assignment and verify that Canvas shows it as submitted.

For Fun offers the same case comparisons with optional writing.
